# RESOLUTION OPPOSES PLAN FOR HIGHWAYS

Charlottesville Officials Assert It Imposes a Heavy Burden Upon Cities of State.

## INSPECT THE CHESAPEAKE

Party of State Senators and Other Officials Spend Labor Day on Flagship—Other News Notes from Various Virginia Points.

(Special to The Times-Dispatch.) CHARLOTTESVILLE, Va., Sept. 1.—Resolution opposing opposition to an extensive highway improvement program at this time were passed by the City Council and Board of Aldermen here. It is charged that a heavy burden will be imposed on the taxpayers of the cities of the State at a time when they are already struggling to carry out their own urgent necessities. It is advocated that \$300,000 a year already provided from State funds to all counties to build roads is so far in excess of present needs that nearly \$500,000 of it is lying unused in the State Treasury. The resolution declares that in lieu of that fact it is the better judgment of both bodies that legislation should be enacted providing for those highways aided by Federal funds. The resolution also advocates that taxes should be levied as to place no undue share of the burden upon the cities of the State. It is also held that the direct or indirect appropriation of funds for aiding roads is at this time unnecessary and undesirable. The resolution bears the signatures of Senators J. C. Haydon, H. C. Walker, President of the Aldermen, and W. M. Forrest, President of the Common Council.

The entire party left for Baltimore, where they boarded the Commodore Maury, the flagship of the fleet of steamers of the Virginia Fisheries and Oyster Department, for a cruise down the Chesapeake Bay, stopping at various points and returning to Baltimore. Most of the members of the party are on the Committee on the Chesapeake and Tributaries, and the trip is principally one of inspection.

## Capture Large Still.

GATE CITY, Sept. 1.—Deputy Collector C. Palmer has just returned from a raid on a large still, where he and other officers made a haul, in which they captured one large still and destroyed a great quantity of beer. Four men were working about the still made a dash into the bushes as the officers approached, and succeeded in making their escape. Sheriff C. W. Dougherty and two young deputies Thursday night captured a home-made still, which they found in operation within five miles of Gate City on the line between Scott and Sullivan counties. The officers came upon the still and the bushes and waited for some time for men to come to it, but evidently the men had a sharp eye for the law and fled at the approach of the officers. At any rate, they left the fire burning under the still, and one of them left his coat hanging on a peg.

# GERMAN COTTON INDUSTRY NEEDS RAW MATERIALS

With Loss of Alsace-Lorraine Country's Normal Needs Will Be 1,500,000 Bales Annually.

(By Associated Press.) WASHINGTON, Sept. 1.—The cotton industry of Germany is suffering from a lack of raw materials, according to information reaching the Department of Commerce. Before the war Germany required 2,000,000 bales of raw cotton annually, but the loss of Alsace-Lorraine will reduce this quantity to 1,500,000 bales. Prior to the war Germany was the second largest consumer of cotton in Europe.

There has been a rapid return to normal conditions in the cotton industry of Lancashire, Eng., since the settlement of the strike there, according to Department of Commerce advisers.

It is reported that 20,000 operatives are working full time and many manufacturers are advertising far weavers. Orders from the Far East are reported to be increasing.

## Labor Day Observed.

AMHERST, Va., Sept. 1.—Labor Day was observed to some extent at Amherst today. The local banks were closed and the post-office was closed from 10 A. M. to 6 P. M. The mail carriers made no deliveries on the rural routes. Quite a good many people took holiday.

## To Discard Freckles, Tan, Pimples, Blistches

The use of creams containing animal grease sometimes causes hair to grow. You run no risk of acquiring superfluous hair when you use ordinary mercurized wax. There is nothing better for a discolored skin, as the wax actually absorbs the offensive cuticle—gradually, gently, so there is no discomfort indoors and no inconvenience. The discarded complexion naturally is replaced by a clear, smooth, healthy one—full of life and expression. It's the sensible way to get rid of a freckled, blotchy, red, or blotchy or pimply skin. Just procure an ounce of mercurized wax at any druggist's and apply nightly like cold cream, rinsing in the morning with soap and water. It takes a week or so to complete the transformation—Adv.

# THE KAUFMANN STORE

First Showing of the Kaufmann Model

# HATS

Today, 9 A. M., Continuing One Week

THIS is a SHOWING of Hats, and should not be confused with any offering of Hats or sale of Hats. These Hats are not for sale.

In point of fact, they are not such Hats as the majority of fashionable American women would choose. They are Hats such as you will admire very much as you admire the headgear of an Egyptian princess of 3,000 years ago, or the jewelled coronet of a Thibetan samant. They are beautiful, approachable, but unattainable.

They epitomize the fashion dictum of the day. They are, therefore, of intense interest to every woman to the degree she aspires to be stylish. Very few will care to miss seeing them.
